# Project Summary

This document is intended to provide a summary understanding of the high-level vision of your project goals.

| | | |
|---|---|---|
| **Company Name/ Team Name** | | |
| **Company Address** | (if applicable) | |
| **Company Website** | (if applicable) | |
| **Telephone** | (if applicable) | |
| **Company Contact/ Team member names** | Kathan Parikh<br>Laurence Liang<br>Kenan Odongo<br>Steven Nguyen<br>Soroush Salari | |
| **Title** | (if applicable) | |
| **Company Email/ Email address for all team members** | | |
| **Telephone** | | |
| **Project Title** | Soccer Connect App | |
| **Project Description** | **<u>About the company:</u>**<br><br>**<u>About the project:</u>**<br>*GTA Soccer Connect* is a web application designed to streamline and enrich the soccer community experience within the Greater Toronto Area (GTA). The platform connects players, coaches, teams, and fans by centralizing essential soccer-related activities—ranging from tryouts and job postings to community networking and match logistics. | |
| **Problem/ Opportunity Assessment *** | *Please describe current state problem/opportunity that describes the nature and extent of the problem (factual, quantified, concise), or that outlines a chance for advancement or progress.* | |
| | 1. | Currently, the problem of not having the resources or knowledge to expand level of play, develop a team, or just want to play casually, affects soccer players, the impact of which is they may fall out of playing because they do not know who to turn to for resources. |
| | 2. | The opportunity is to develop a platform that would enable the active soccer community in the GTA to foster a more connected and involved environment by giving for separate communities to interact with each other and with professional organizations. |
| | 3. | |
| **Desired Project Outcomes/ Requirements*** | *Define how this project shall address a business need, e.g. the business problem or opportunity described above; describe what the beneficiary must be able to do / receive from the solution* | |
| | 1. | Users can create detailed profiles that can include different information based on type for example player type users can list stats such as goals scored, games played, etc. |
| | 2. | Teams and clubs can post open tryouts and coaching/staff listings, they can filter player applications by categories like age, skill level, availability, etc. |
| | 3. | Creation of a community-driven network hub where users can create public |

| | | |
|---|---|---|
| | | and private chat channels for teams, events, or general discussions. Allows users to view event announcements and match highlights. |
| | 4. | Field and play space booking featuring location filtering and the visualization of bookings via a calendar. |
| **Key Deliverables to be produced by students*** | *Define the boundaries of work that you expect to receive from the students effort (vs. internal effort)* | |
| | 1. | A mobile or web application that contains multiple sections each offering different unique features that can be accessed by interacting with tabs at the top of the screen of the user device. The number of features available can be restricted by user type when they create an account. |
| | 2. | When a user creates a team, updates their user profile or any activity that requires saving any data, it should be stored in separate databases and loaded to the correct user. |
| | 3. | |
| **Desired Start Date** | Monday, September 15, 2025 | |
| **Desired End Date** | Friday, March 27, 2026 | |
| **Attachments** | *List attachments that support project description* | |
